First I kindly disagree with this editorial paragraph “Because a write-in candidate has filed expressly to close the election to non-Republicans, only registered Republicans may cast a ballot in this race”, thou true, not illegal by current laws, if we do not like our laws need to lobby to change them.

These issues also arise given the fact that at times candidates that were long term registered Dems change party’s to Reps, because is obvious will get more votes in our red state.

Councilman Mr..Klufas cost myself and neighbors residents thousands in lawyers fees to successfully oppose his beloved 150’ high cell towers @ 150 to 200 feet from our homes but not his inside Grand Haven NIMBY logically. What is good for the goose is good for the gander when it comes to his ill conceived some towers location un his Wireless Master Plan..We didn’t oppose the towers but the selective incorrect location. We better vote for Kim Carey, Pam Richardson and Fernando Melendez for FCBOCC as Mr. Klufas still lobbying for the same location we costly fought successfully off, and in his candidate profile:: “I also championed the creation and adoption of our cellphone wireless master plan We have substantially improved cell phone reception within the City and it could be even better if we had a majority of

our council willing to vote for an additional tower on our golf course identified by our Master plan” Candidate Reports

Candidate Reports

Because the above and more, is that Mr. Klufas should be a NO, for Friends of Florida Park Drive and Cimmaron Drive, for the vote in up zoning plans for developers and the loss of our Harborside Resort destination that provided with 371 local hospitality jobs in exchange for more ICW front townhouses. 33 millions for pickle balls courts and Southern Rec. center and zero for 1078 Palmcoasters paying members loosing their access to the Belle Terre R, and Swim pool, courtesy of the 3 in the school board, Most members families with children, elderly and special needs users that do not afford a home or “clubhouse pool” in our long hot summers.

How much \$\$\$ are we getting back from Mr. Klufas city owned Fiber Optic now with Metronet and ITT also coming with their competition as warned then “to let the big boys do what they do best”? Is so much we can look ahead and spend in an Imagination into the PC future ignoring the residents very needs of today. This is why also we need in Palm Coast District 3 Ray Stevens and District 1 Jeffery Seib

Look at the facts: 1) He voted for a 151% raise for himself while many residents of Palm Coast struggle to put food on the table for their children, out of touch with the

community. “Council member Nick Klufas—who had previously favored a more gradual increase in pay—spoke most adamantly in defense of the higher pay, making a direct link—still never documented by Klufas or any member of the council—between better pay and a higher quality of candidates, or candidates from different walks of life.” 2) Fought residents seeking to protect their neighborhood’s Quality Of Life, safety, and health. (Consider 8,000 cars per day 60 feet from children’s bedrooms.). List is much longer, but know he voted himself 151% raise and used that raise to fight against tax paying residents. His high pay improved his life, not residents.
